Center Stage Equipment Here

EQUIPMENT for SUMMER THEATRE'S STAGE NOW BEING PLACED

A large semi truck arrived in East Jordan Sunday afternoon from New York bringing our new summer theatre's stage and lighting equipment. Lester Robin, another member of the cast rode through with it to make sure that nothing was left behind when it was loaded and that everything arrived OK.

Tuesday noon several members of the cast were guests of the Petoskey Kiwanis Club, whre they entertained with several demonstrations of correct and incorrect theatre technic.

Last week we promised to give you short sketches of the various members of the group, so here are a few for this issue.

Cyvia Gilbert is an actress as well as being their lighting technician. She planned their entire lighting setup and also designed their switchboard. . . . and oversaw the building of it. The switchboard, according to the New York firms which did the actual construction, is the equal of those in the large city playhouses. It has seven main switches, whose combinations are capable of producing 140 different lighting effects. Cyvia studied at Hunter College and the Dramatic Workshop of the New School for Social Research. She has also worked with Hnsa Sondheimer, the lighting consultant of the New York City Center; taught acting and speech at New York's Menkes' School: was actress, lighting designer and director at Flushing, Long Island theatre.

Jean Thomas has studied at the San Francisco Arts and Crafts and at the Pasadena Playhouse. She will be designing all of their sets this summer, plus handling most of the art work. She designied the settings at New York's Equity Library theatre for "Alice Adams" and "Men in White." Has also designed settings for "Claudia", "Dark Eyes", "Arsenic and Old Lace", "Ladies in Retirement", "Thunder Rock", and "Here comes Mr. Jordan." Besides activities she has rode for professional horse shows and studied to be a concert violinist.

Anne Putnam Dean hails from Washington D. C. and Boston. She studied at Radcliffe and Sarah Lawrence colleges. Has done theatre work in Pomona and Oakland, California, Summer stock at Bailey's crossroads, Va., Willard theatre, Washington D. C. and Hawthorne Playhouse, Gloucester, Mass. Has also danced in California and with Joseph Limon, in Madison Square Garden, and has worked in radio.

Anne is married to Charles Dean, Economics instructor at Rutgers University. When she arrived in East Jordan, she suprised everyone by asking "Where is Alba. . . isn't it near here?" Her husband was born at Alba.

Suzanne Smith is a native of Bay City, although she has spent most of her time in the east. She is an actress, artist and costume designer. Studied at Scripps College in California and at Black Mountain college in North Carolina. Also studied art under the German artist, Josef Albern. Has worked at t ehOgunquit, Maine summer theatre, one of the country's best; in theatre work in Ashville, N. C., and, (in New York) appeared in "Lysistrate", and "Androcles and the Lion." Has also done considerable modeling for the John Powers agency.

We will give you a few more of them next week.

Kenny — Bulow

The Church of God at Charlevoix was the scene of a quiet weding on Saturday afternoon, June 12, at 2:30 o'clock when Mrs. Maud Kenny became the bride of George Bulow of Livingston, Mont. The Rev. W. D. Wood read the single ring ceremony.

The Church was decorated with baskets of tulips and spirea.

The couple were attended by Mr. and Mrs. Ray Benson. Mrs. Benson chose a dusty rose street length dress is the sister of the groom. The bride of pebbly crepe with white accessories and she wore a corsage of white roses and lillies of the valley. Mrs. Benson wore a medium blue gaberdine dress with black accessories and she wore a corsage of pink carnations.

Following the ceremony a reception was given by Mr. and Mrs. Marvin Benson at the home of Mr. and Mrs. Ray Benson for immediate relatives. The house was decorated with baskets of Iris, Peonies and spirea. The refreshment table was centered with a wedding cake, made by Mrs. Marvin Benson, it was topped with a nosegay of white carnations, sweet peas and lillies-of-the-valley and surrounded by pastel shades of sweet peas. The wedding cake was served with ice cream and coffee.

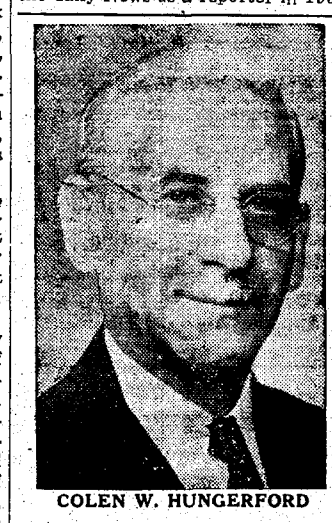

Mr. and Mrs. Bulow lft for a short trip to Detoit and Pontiac. They will be in the City a few days, then go to Livingston, Mont., to make their home.

Hungerford Retire After Many Years With Bell Tel. Co.

Detroit, June—Colen W. Hungerford, who was advertising manager for the Michigan Bell Telephone Company for more than two decades, has retired after 29 years with the company.

An old-time newspaperman who has remained close to Michigan newspaper people through the years, Hungerford worked on newspapers in Sault Ste. Marie and Houghton and with the Associated Press in Detroit before going with the Michigan Bell here in 1919. At retirement, he was assistant to Vice-president for the company.

Hungerford's first newspaper job was office boy at 10 for Chase S. Osborn's Sault Ste. Marie News, then a weekly newspaper. When he left the daily News as a reporter in 1930,

COLEN W. HUNGERFORD

his editor was the late Col. Frank Knox, wartime secretary of the Navy and, until his death, publisher of the Chicago Daily News.

From 1905 to 1918, Hungerford was successively reporter and city editor of the Houghton Daily Mining Gazette. He also was a special correspondent for Detroit and other metropolitan dailies during a period when Michigan's Copper Country was on the front page every other day.

Hungerford became assistant manager of the Michigan Associated Press in August, 1918, where he planned and helped establish the telephone method of compiling statewide election returns.

At Michigan Bell, Hungerford founded the company's employee magazine and fathered its tourist advertising campaign which proclaimed the attraction of Michigan vacations for Michigan residents. Active in the National Guard from 1909 to 1917, he was publicity director for many Army and Navy Day programs and other patriotic activities.

Hungerford is a member of the Michigan Press Association, the Adcraft Club of Detroit, the Detroit Board of Commerce, and the Telephone Pioneers of American.

Ill for more than a year, Hungerford has been living at Carmel, Calif., for the last several months. He retires in accordance with the company's pension and benefit plan.

Farm Credit Co-op's Celebrate

GAYLORD PCA CELEBRATES ITS 15th ANNIVERSARY

The local Farm Credit cooperative credit association celebrated the 15th. anniversary of the Farm Credit Act approved June 16, 1933. Fifteen years of service to agriculture in the retailing and wholesaling of credit to farmers' cooperatives was the reason for the celebration.

It is with just pride that the local Farm Credit association, the Gaylord Production Credit Association, celebrated the passage of the Act by Congress and the chartering of the association on December 30, 1933. Since that time Arnold W. Ostrander, president of the PCA, says the association has served 1658 farmers in Alpena, Antrim, Charlevoix, Cheboygan, Crawford, Emmet, Montmorency, Oscoda, Otsego and Presque Isle counties, and has supplied credit amounting to $3,878,000.

A. J. Townsend, secretary-treasurer, reports that as of May 31st. 350 famers in the above counties have loans and an outstanding volume of $362,000.

These loans are made to meet the needs of agriculture and are to be repaid from the farm income. That was the thinking back of various Acts that were the foundation of the Farm Credit Administration.

The oldest member of the Co-op Farm Credit team, the Federal Land Bank of Saint Paul, is 31 years old and was created to provide a course of long-term farm mortgage credit through national farm loan assscia-tions. The wholesaler of the team, the Federal intermediate crdit bank, obsrved its 25th. anniversary this year. This bank provides discounting facilities for local agricultural lending institutions, thus making operating credit available to farmers. The Farm Credit Administration itself and the other members of the team, the St. Paul Bank for Cooperatives and the production credit association system, are 15 years old.

In early 1933 a proposal was made to Congress that an over-all cooperative farm credit system be established, and on June 16 the Act establishing the Farm Credit Administration was approved. The passage of this Act, which came shortly after the low of the worst depression this country has known, drew together existing agricultural credit agencies, including the Federal land banks, Federal intermediate credit banks, and the Farm Board functions in financing cooperatives. All agricultural commodity prices were at rock bottom levels—wheat, 30 cents a bushel; pork, $2.50 cwt., and other farm produce at extremely low prices.

The Farm Credit Act rounded out this credit team by providing for the organization of cooperatives, farmer-owned production credit associations, which could make use of the wholesale credit facilities of the intermediate credit bank.

Farmers are proud of their local cooperative credit asociation, both production credit association and national farm loan associations. These organizations are strongly built to serve the farmers' needs in good and in bad times. They have met the problems of depressions, droughts, war, post-war and relatively prosperous years.

Deer Herd Control In Leelanau Co. Open To Archers

Five sportsmen's clubs of Leelanau county, the county board of supervisors and aggrieved farmers have joined forces in a campaign to reduce deer damage in the county with an Allegan-style regulation that would permit deer herd control.

Warren Shapton, district game manager for the conservation department, has on file the names of 35 farmers who have suffered deer damage this year, and estimates twice as many more cases could be found in the county if a survey was made. Most farmers neglect to file complaints, he says, because they regard the procedure as futile.

Most of the damage is to orchards. Fourteen sample complaints in 1947 averaged $500 each. There is similar though not so extensive damage to orchards in Benzie and Grand Traverse counties. Besides eating tops off young fruit trees in summer, buck deer deform or destroy orchad trees in the fall when they use to rub velvet off their antlers.

Leelanau county is now open to regular buck hunting in the fall and to buck, doe and fawn shooting by archers, and further changes to permit effective herd control must be authorized by law.

The man who said one half of the world does not know how the other half lives never was on a rural phone line.

Light Vote Cast at School Election

PROPOSITION TO RAISE TAX LIMITATION DEFEATED

Considering the importance of the proposition to raise the tax limitation for a Bus Garage, the vote at the School Election last Monday was disheartening. Only a bare 78 votes were cast out of the many hundreds qualified electors in East Jordan Rural Agricultural School Dist. No 2. The total vote was for the proposition a bare 37, while the negative was a measely 46. Another election, with qualified voters passing on the issue might Spell a different story.

On the vote for Member Board of Education, William A. Shepard received 64, while a few were blank ballots and scattered.

A handful of Michigan's 100-plus state governmental units, targets recently of the crusading Governor Kim Sigler, are about to be merged into a new state department of administration at Lansing.

Threin lies a predicament for John A. Perkins.

Perkins capable budget director, will become head of the new department at a salary of $12,000 a year. An appointee of the governor, subject to confirmation by the State Senate, he will have considerable authority as state controller.

Perkins' predicament is a result of several public illusions.

He is expected to perform a miracle, and he can't do it.

As evidenced by the voters' diversion of state sales tax money to local governments by constitutional amendment, the public apparently persists in a belief that the State of Michigan is rolling in money and a parallel belief that consolidation of 100 state units into 18 or 20 would automatically save a lot of money.

Perkins, like Governor Sigler, knows well that the state government is not blessed with an abundance of dollars. In fact, a deficit of $14,000,000 is clearly forecast for the end of the 1948-49 fiscal year. Only another rise in the post-war inflation, boosting prices still higher, ean avert a deficit.

Perkins also has no illusion that he can deliver the miracle of economy.

The state legislature authorizes public services. His department will administer only a few of them, and all within appropriations as made by legislators.

It is the belief of Perkins that the chief benefit of the new department will be greater efficiency. He does not expect to achieve economy through educaiton of legislative appropriations. In this, he is very much a realist.

"Greater value received for the tax dollar is our chief objective," Perkins explains. "If anything, we probably shall need more money than heretofore. The budget staff has been notably understaffed for years. We should test products which the state buys to make sure we get our money's worth in quality.

"Michigan's administration department is almost an exact duplicate of the principal reform achieved by Stassen when he was governor of Minnesota. The Minnesota department is a model which we may well follow."

The new department takes over some of the duties formerly administred by the state administhative board comprising eight elective state officials, each with his own primary responsibilities. It will have five divisions: Budget, purchasing, accounting, building-engineering-management, motor transport, and office services.

Purchasing of all state supplies, equipment, and printing will be handled by the department. Warrants for disbursement of state funds to buy for goods or services shall be drawn and issued by the auditor general upon the certification by the controller. The auditor general will post-audit spot checks to determine how departments and institutions are spending money as appropriated by the legislature.

"More for your money" is perhaps the best way to illustrate what Perkins hopes to accomplish. Don't expect any magic economy through reduction of legislature appropriations.

Homecoming July 3, 4, and 5

MANY WILL RETURN TO EAST JORDAN FOR CELEBRATION

East Jordan's first big Homecoming and July 4th celebration since the recent war will be held here this July 3rd, 4th and 5th.

A grand three day program is being arranged and several innovations are being considered. A cross country motorcycle race will be one of the attractions. There will also be a canoe race down the Jordan (From State Rd. bridge to the city pier), and a soap box derby for the kids.

Among the usual attractions being lined up are baseball games, parade, water sports, rides and carnival. Another feature which has always proved popular will be the displays of old East Jordan photographs in the store windows. People should start now looking up their old pictures and be sure your name is on the back so they can be returned.

The Soap Box derby will be for boys up to and including 14 years of age. We will have the rules for you next week, Kidies, better start looking up your wheels and fruit crates now so you can be ready for the race. Winners will receiv prizes in all contests.

From the time they register Saturday morning July 3rd, till the close of the celebration, there will be something doing every minute. For instance, as plans now stand, there will be a parade about 11:00 a. m. Saturday, at 2:30 that afternoon, Center Stage, our new summer theatre, will be giving a matinee performance. This will be followed by a twilight baseball game at 5:00 p. m. And another performance at the playhouse in the evening. This is an idea of what we mean when we say continous entertainment throughout the celebration.

Fruit Fly Warning

Cherry Growers are warned that the cherry fruit fly is out. Spray with 2 lbs lead arsenate immediately and again in 7-10 days.

Buffalo Rendezvous

East Jordan's Boy Scout Troop 10 enjoyed an interesting and impressive week end at the Buffalo Rendezvous at Camp Greilick.

The boys left Friday morning aboard the Canning Company truck. The day was spent traveling, setting up camp and swimming. A novel touch was added to the swimming by the use of two enormous pneumatic life rafts, fifty feet long, which were built to float 13 tons or all the boys that could get on.

The council conducted contest in wood cutting and firebuilding Saturday morning. Saturday afternoon a glamorous parade was staged for parents and friends by the scouts in costumes of Indians and early pioneers on foot, on horseback and in prairie schooners. The parade was followed by a generous serving of Buffalo meat to all attending. Saturday night Chief Ettiwogezick and the senior scouts of Harbor Springs staged a very expressive Indian dance and treaty ceremonial at the evening campfire. Music and stunts were furnished by the various troops and the Scenic Trails council exectitives in the light of camp fire and colored flares.

On Sunday, one morning service was held for Protestants and one for the Catholic boys. Both were well attended.

The Scout committee feels grateful to the scenic trails leaders for the fine execution of this first Buffalo Rendezvous.

Parents and friends attending the ceremony were:—Mr. and Mrs. Joe Nemecek, Jr., Mr. and Mrs. Gus Anderson, Mr. and Mrs. Richard Hamerski and R. Malpass.

Change In Restaurant Ownership

Mr. and Mrs. Clyde Irvin have sold their interest in the Temple Cafe to Doris Feldt and Mary Tiefenthal of Boyne City. They have purchased a part interest in the Harbor View Cafe at Charlevoix of Mr. and Mrs. Pete Baker (formerly Mrs. Tower). Both couples have taken over their new work.

Mr. and Mrs. Irvin will be pleased to see their many East Jordan friends who may visit at Charlevoix, and wish to thank the people of East Jordan for their valued patronage in the past. advx. 25x1

AN APPRECIATION

We wish to express our sincere thanks and appreciation to our friends, neighbors and the Peninsula Grange for their help during and after the fire at our home.

"I KNEW HOUDINI"

How did Houdini live while entombed under water? How did he expose "Margery" Crandon, the fake medium? Let Joe Lee, Houdini's former publicity agent, take you behind the scenes for an intimate glimpse of the great magician, in The American Weekly with this Sunday's (June 20) issue of The Detroit Sunday Times.

Building contractors have their troubles nowadays, too, not the least of which is the poor quality of lumber frequently offered them. A despairing contractor recently dispatched this telegram to the mill that had just sent him a carload of lumber:

"Knot holes received. Send the knots."

Man—How do you feel this morning?

Voice on Phone—Fine.

Man—Sorry, wrong number.

From where I sit ... by Joe Marsh

How to Live Longer

Someone asked Pappy Miller last week how he stayed so spry at ninety. Pappy told him:

"Well, sir—when I work, I work hard. When I set, I set loose. When I think, I go to sleep."

According to Doc Hollister, that formula isn't far amiss. "Hard work," says Doc, "never wore out anyone before his time, providing he knew how and when to relax."

Doc himself works overtime, with his daytime patients at the office, and his evening calls. And when he gets home he takes it easy with a mellow glass of beer and chats with the missus until his time to go to bed.

From where I sit, relaxing is a fine art—especially in these tense, fast-moving times. And there's nothing like a temperate glass of beer—enjoyed with pleasant company—to restore that easy frame of mind that one needs after a hard day's work.

The Hope For The Messiah

Lesson for June 20, 1948

THE hope for the Messiah first revealed to Adam in Genesis 3:15, and repeated to Abraham, Moses, David and Isaiah, was now proclaimed through Ezekiel, Daniel and Zechariah.

Dr. Newton

Here we have the hope of preservation, the hope of peace, the hope of security, the hope of usefulness, the hope of deliverance, the hope of dominion, the hope of service, the hope of sovereignty, the hope of redemption and the hope of purification.

• • •

A PROMISE FROM GOD

THIS is no fancied scheme of man. It is God's clear promise. "Therefore will I save my flock, and I will set up one Shepherd over them, and he shall feed them . . . and I the Lord have spoken it."

God goes on to promise them peace by ridding them of danger, and security through his blessing upon the land. "There shall be showers of blessing."

• • •

LOOKING FOR A BETTER WAY

LONG had the people looked for a better way. Now God would provide that better way. It would be vouched safe unto them through the Good Shepherd. He knows the way, he holds the key.

The wistful hearts of the people must have been lifted up as Ezekiel and Zechariah shouted their prophecies of the coming Messiah. Many of these very passages have been used for the anthems which our choirs sing today. Well may every Christian employ them to tell of that better way in the midst of this troubled, changing world about us.

• • •

DANIEL'S DREAM OF THE DELIVERER

THE passage in Daniel is resonant with hope. "I saw in the night visions, and, behold, one like the Son of man came with the clouds of heaven." This dream of Daniel was a vision of the Messiah, bringing dominion, glory and a kingdom—a kingdom for all people, nations and languages. It is the universal hope of the ages, brought nearer through this inspired vision of the prophet. "For unto us a child is born, and unto us a son is given; and the government shall be upon his shoulder; and his name shall be called Wonderful, Counsellor, Mighty God, Everlasting Father, Prince of Peace."

This vision of the coming Messiah set every bell ringing in the heart of humanity.

• • •

SAVIOUR AND KING FOREVER

ALL THE promises are embodied in these passages—Jesus the Saviour, Jesus the King, Jesus the Sanctifier. Here was hope for the Jews, and for all mankind. It was proclaimed through Jewish prophets, and Jesus was born of a Jewish mother. Favored, indeed, was that race. And although there be many who have rejected the Messiah, he fulfills the deepest meaning of every man's hope.

With Charles Wesley we sing:

Hail, thou long-expected Jesus,
Born to set thy people free;
From our sins and fears release us,
Let us find our rest in thee.

Born thy people to deliver,
Born a child, and yet a King,
Born to reign in us forever,
Now thy gracious kingdom bring.

Christian Generosity

On occasions a collection is taken in a tavern designed to relieve some man's distress. For any such generosity let us be thankful. But let us also remember that that sort of thing is done only occasionally in a liquor joint and it is the regular habit in a church.—Roy L. Smith.

No Grim Struggle

To become a musician you don't grit your teeth for a grim struggle. The basic fact for successful living is that life is eager to serve you. Approach it, then, in faith. "Fear not, little flock, it is your Father's good pleasure to give you the kingdom!"—Virgil Kraft.

Campers May Know Their Trees Growing In Michigan

Campers and cottagers interested in knowing one tree from another at the spot where they spend their vacation this summer may take along a guide to Michigan's native forest just published by the conservation department.

Just off the press, the illustrated 42-page booklet describing 34 different trees was produced primarily for use in the schools beginning next September, but copies are available to the public at 30 cents each.

Photographs and botanical notes in the text are a convenient guide in distinguishing the different trees, and the accounts of the individual trees relate their economic and historical importance in Michigan. The publication's several chapters, written by Norman F. Smith of the department's forestry division, have appeared serially in the department's monthly magazine since 1940.

Rural Tele-news

HITCH HIKE: Telephone conversations "hitch" rides on an electric power line near Crystal Falls in the Upper Peninsula, by arrangement with the power company serving the area. This new system supplies telephone service for farms that have electric power but are far from telephone lines. Most farm families, however, will still be served by regular telephone lines.

POLE PASTURE: Bell Telephone Laboratories have "planted" hundreds of telephone poles in an experimental field for exposure tests of 10 to 50 years. Soaked in various preservatives, the poles are tested for reactions to earth dampness, hot sun, frost and damage by fungi and insects. Findings help preserve the life of the more than 15 million poles now in service in the U. S. A.

WORKING DOLLARS: Americans in all walks of life, who invest their savings in telephone securities, make it possible for us to give you more and better telephone service. Their money is used to expand the telephone system . . . increasing the value of *your* telephone by providing more telephones that you can call.

WEEKLY NEWS ANALYSIS

Farm Groups OK Brannan Choice; Truce Request Fails in Palestine; GM Wage Pact Could Set Pattern

By Bill Schoentgen, WNU Staff Writer

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

APPROVED:
Brannan

President Truman's choice of Charles F. Brannan to succeed Clinton Anderson as secretary of agriculture has received the wholehearted approval of the national farm organizations.

They consider the 44-year-old former assistant secretary of agriculture "a friend of the farmer."

One of the bases for this feeling of harmony is the fact that Brannan and the farm organizations concur in thinking that the prewar parity law is badly outdated.

Such crops as soybeans, for instance, have attained a much greater importance since the law was passed but still have no satisfactory price fixing basis. Other farmers, including cattle and dairy producers, claim their parity scales are out of line in this postwar period.

Ideas developed by Brannan to help remedy this situation have been largely adopted by the leading farm groups and are incorporated in bills now pending before congress. Unless congress acts by the end of this year the law guaranteeing farm prices at 90 per cent of the fixed parity rate will expire.

Serving quietly as assistant secretary of agriculture for the past four years, Brannan has made himself the backbone of the administration's drive to enact a long-range farm program.

Thus, the farmers think a lot of Brannon because he has demonstrated that he is looking out for their interests in a realistic, level-headed fashion.

President Truman, it appeared had made a good choice in putting Brannan at the head of the department. Almost everybody was satisfied, and that, in an election year, was a most desirable situation for Mr. Truman.

FAILURE:
No Peace

It was difficult to say who would suffer more from the Arabs' rejection of U. N. truce plea for Palestine — the Arabs themselves, the Jews or the United Nations.

Probably the Jews came off to better advantage in the world councils of public opinion, inasmuch as through their willingness to accept a truce they now can appear in the role of a nation which has been wronged and is forced to fight a war that has been thrust willy nilly upon it.

The Arabs simply brushed aside the idea of a truce with the contention that they could not halt the shooting war until the state of Israel is abandoned and the Jewish army demobilized. There never was any question in the minds of Arab leaders about the truce. It was literally unacceptable to them. Their position was stated definitively by the Egyptian premier, Mahmoud Fahmy Nokrashy Pasha, who said:

"There never will be founded a state called Israel, or any other name, as long as the creation of that state relies upon the theft of Arab land, the extermination of its Arab owners and the sacrifice of moral principles of its Arab neighbors."

Nevertheless, the Arab refusal was a bitter blow to the U. N. security council. It had been organized for the express purpose of resolving just such disputes as this one in Palestine, yet it could do nothing more than make a weak gesture of placation.

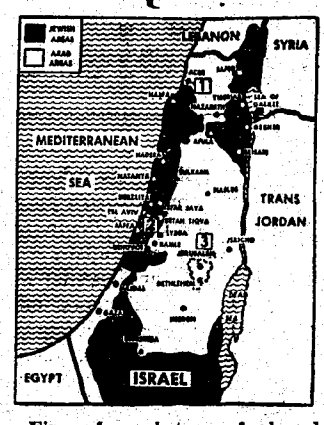

There was little doubt that the security council had been rendered toothless and impotent on the Palestine issue by the U. S. attitude, or rather lack of attitude, toward the whole thing.

What position the United States would take as an individual nation with regard to the Palestine war was not clear either.

At a conference with Chaim Waizmann, Israel's president, President Truman promised that the U. S. would provide financial support for Israel in the form of a loan of about 100 million dollars. Further, he hinted at the possibility that unless the Arab states cease fire the U. S. might provide arms for the Jews.

Day after the conference, however, Mr. Truman dismissed Weizmann's plea for a loan as something that could be handled by the export-import bank, and he completely ducked the issue of raising the embargo on arms shipments to the Middle East.

No Quarter

Fires of war between Arab and Jew continued to burn in the Holy Land when the Arab states refused to comply with a U. N. request for a truce. Attacking Jewish forces at all points, the Arabs said they would not quit until the Jews renounced their new state of Israel. Meanwhile, as victorious Haganah troops took over Acre (1), Egyptian planes intensified the air attack on Tel Aviv (2) and Arab troops enjoyed their greatest victories in Jerusalem (3).

PAY HIKE:
New Formula

When General Motors corporation averted a threatened strike of 225,000 auto production workers by offering an 11-cent raise based on a cost-of-living formula it probably set a precedent which will be followed in settling other industrial labor disputes.

Under the agreement, described as an "entirely new approach to the living cost problem," GM production workers get an 8-cent cost-of-living increase and a 3-cent pay boost based on annual industrial efficiency improvement.

Terms provide that wages be adjusted up or down each three months to conform with fluctuations in the consumer price index of the bureau of labor statistics.

It appeared to be a sound plan and one that might be followed to good advantage by other industries. Biggest flaw in the scheme was the fact that General Motors might have to pass the cost-of-living raise on to the public, which step might have the eventual effect of nullifying the benefits of the raise to the workers.

Significance of this adjustable cost-of-living wage formula can be seen in a review of the rise in prices since 1940. The cost of living today is 69 per cent higher than in 1940. Using 1940 as a base year —which is what GM and the United Auto Workers did in arriving at their agreement—living costs now are at 169 per cent.

Biggest jump in the steadily rising price pattern came after OPA collapsed in the summer of 1946.

VOICE:
Belittling

Voice of America broadcasts, which have never received a full measure of congressional approval, sank to an even lower level of disesteem because of a series of ill-starred programs beamed to Latin America last winter.

The scripts in question, denounced by senators as sabotage, slander and libel of the U. S., first attracted attention in March during house appropriation committee hearings on the Voice of America. In the sample script that the committee wanted to look over were some ill-chosen remarks about Wyoming.

Stout-hearted Wyoming congressmen shrieked in anguish. Other scripts were examined, and Sen. Homer Capehart (Rep., Ind.) finally aired the whole thing before the senate.

The legislators shuddered as they heard Capehart read from the scripts such excerpts as:

"New England was founded by hypocrisy and Texas by sin."

"Nevada's two main cities compete with each other because people get married in Las Vegas and divorced in Reno."

The programs were handled by the National Broadcasting company under contract with the state department. Rene Borgia, the man who wrote the scripts, was fired, and Alberto Gandero, Borgia's supervisor, resigned.

FEWER BENEFITS LOST

People Are Discovering Social Security

Although inadvertent loss of benefits remains a major problem, the number of persons who deprive themselves of old-age and survivors insurance benefits because they delay filing their claims is decreasing steadily.

That report has been made by the Federal Security agency's social security administration. In announcing the improvement, O. C. Pogge, director of the administration's bureau of old-age and survivor's insurance in Baltimore, said:

"Our continuing efforts to inform workers of their benefit rights have resulted in increased public awareness that old-age and survivors insurance benefits are payable only if they are claimed."

? Current Events ?

Although they might seem a bit obscure to anyone who doesn't make a conscious effort to memorize the front page of a newspaper every day, these questions do have answers. As a matter of fact, the questions are so difficult that even the answers have answers.

1. Capitals of the seven Arab league states fighting Israel are: Mecca and Riyadh (dual capitals of one state), Baghdad, Damascus, Amman, Beirut, Cairo and Sana. What states do they belong to?

2. Sir Alexander Fleming has been awarded the American Medal for Merit for his contribution to medical science. What contribution?

3. Republicans meet in Philadelphia this month to nominate their candidate for president. Where did the GOP nominate its last successful candidate?

4. When President Truman nominated Charles F. Brannan as secretary of agriculture it brought the total of Truman cabinet appointments to 10, 16 or 21?

5. Everyone knows that the Taft of the Taft-Hartley act is Sen. Robert A. Taft of Ohio: Identify the Hartley.

ANSWERS

1. Mecca and Riyadh, Saudi Arabia; Baghdad, Iraq; Damascus, Syria; Amman, Trans-Jordan; Beirut, Lebanon; Cairo, Egypt; Sana, Yemen.
2. He discovered the germ-killing properties of penicillium mold—which led to development of penicillin.
3. Last successful GOP candidate was Herbert Hoover, nominated in June, 1928, at Kansas City, Mo.
4. Mr. Truman has appointed 16 to the cabinet.
5. Rep. Fred A. Hartley Jr. (Rep., N.J.)

Oratorical Flight

If Secretary of the Navy John Sullivan had possessed wings he probably would have flapped them in his enthusiasm when he went before the house armed services committee to urge congress to let the navy speed development of a 65,000-ton super aircraft carrier, costing 124 million dollars.

CORNBALL:
For Breakfast

Some of the more sentimental hands around the American Broadcasting company's Chicago studios like to think of Don McNeill as a beautiful and vibrant symbol of the rise and snowballing success of ABC itself. At least they both were young together and both had to fight their way up through a welter of opposable circumstances to find adjoining places in the sun.

McNeill

As toastmaster of the uninhibited Breakfast Club program, McNeill will celebrate his 15th anniversary on June 23 with the same kind of capers he has been executing five days a week between 8 and 9 a. m. since 1933.

Despite the subterranean regard which this sophisticated generation purports to hold for the more direct and obvious types of humor, McNeill has found that being a cornball pays off. He works without a script and his gags are strictly off-the-cuff.

He once invited a herpetologist (a student of reptiles and amphibians) who visited the program, to "Come into the parking lot after the broadcast and I'll show you a rare specimen. A windshield viper."

And when a New Jersey woman told him that her husband is a butcher and she is a corsetiere, he commented, "What an ideal arrangement. He fattens them up and you pull them in."

McNeill parlays this kind of extemporaneous patter with a feeling of genuine camaraderie for the plain people who are guests on his show to produce a program that has had a nationwide cult of early morning listeners begging for more for 15 consecutive years.

Unhealthy Families

Families with two children are "socially unhealthy," however fashionable they may be, the National Congress of Parents and Teachers in Cleveland was told by a University of Chicago professor of education, Robert J. Havighurst.

"A significant section of our population now have too few children to reproduce themselves," he told delegates to the annual convention.

GRASSHOPPERS

In checking it has been found that the grasshoppers are natching fast and they will be a serious problem this summer if they are not checked. The time to do the best job of killing them is within the next week.

The County will furnish the bait free of charge. The station where the bait is mixed is at the Mel Bricker Sawmill, located on M-32, six miles west of Elmira.

The station has been open for several days and many farmers have already obtained their poison bait. Farmers should be sure and bring along sacks and they will be asked to help mix their own bait.

The bait should be spread on a hot day starting around 9 to 10 o'clock. It takes about 10 lbs of bait to the acre so it should be spread thin.

The station opened Wed. June 16th and will continue to be open each day except Saturday and Sunday until further notice. Bait can be obtained between the hours of 8:00 a. m. to 4:00 p. m. After you have used the sacks for poison bait, you should bury them deep in the ground or they can be burned and the ashes buried.

Watch the paper for notice of the change in time or date of closing the mixing station.

ANTRIM COUNTY TO HELP CHILDREN OF EUROPE

A national campaign to help the children of Europe has been organized so that the Antrim County people will have the opportunity to participate. A group of 11 people representing the various areas of the County met at the Court House last Friday and organized the campaign.

It was decided to ask all of the many and various organizations in the County to donate and in this way it would eleminate individual soliciting. A committee of three, Virgil Thayer, H. C. Fisher and O. F. Walker will head the drive and Orrin Lathrop is the Treasurer. Individuals willing to donate are certainly encouraged to do so. All checks should be made payable to the Antrim County Treasurer of U. N. A. C. (United Nation Appeal for Children) and sent in to Mr. Lathrop, Bellaire. The thing to remember in giving this aid is that $10.00 will keep a starving child alive for one year.

4-H JUDGING SCHOOL

The 4-H Judging in Clothing, Canning, Food Preparation, Crops and Garden will be held Saturday afternoon at Camp Hayo-Went-Ha located on Torch Lake. These contests will be held in connection with the County 4-H Club Camp. Members wishing to enter these contests should be at camp by 1:00 p. m. Saturday. Winners of these contests will be awarded a trip to the district contest which will be held later in the summer.

Camp Hayo-Went-Ha is located on the Lake Shore drive, five miles North of the corner where the Bellaire road meets the Lake Shore road. Watch for road signs.

Upon seeing a little girl lead a cow along a country road, the parish minister stopped her and asked:

"Little girl, where are you taking the cow?"

"To the bull," replied the little girl.

"Can't your father do it?" questioned the clergy, somewhat taken aback.

"Nope," answered the young lassie, "only the bull.'

It isn't what you pay—
It's what you get!

If you had to pay a million bucks for that baby of yours, you'd still be getting a bargain.

And you don't get many other bargains these days of high costs.
Except electricity, of course!

Yes, electricity goes right on being the biggest bargain in anybody's budget. *The average family is still getting twice as much electric service for its money as it got 20 years ago!*

One penny will light a 100-watt bulb for almost 3 hours.
Or whisk clean 3 tubs of washing!
Or run a radio a whole evening!

That little copper will vacuum clean 6 large rugs, run your refrigerator for 5 hours, or tell you the correct time for about a week.

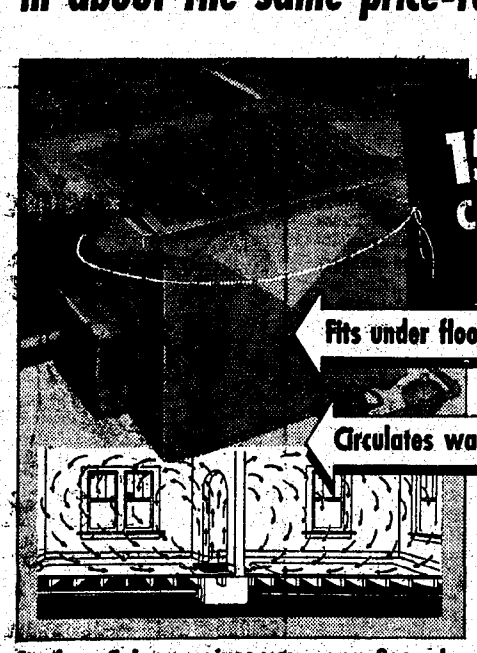

It isn't what you pay, it's what you get, that's true. And when you buy electricity, you get a lot—for a little!

• ONE HOUR LATER. *New time for the Electric Hour—* THE HOUR OF CHARM. *Sundays, 5:30 P. M., EST, CBS.*
